SWA Virtual Tour: Experimental Power Grid Centre

18th September 2020, Complimentary, Cisco Webex

Singapore Water Association organised an inaugural virtual visit to the Experimental Power Grid Centre (EPGC) on Thursday, 18 September, 10am, facilitated by the Smart Grid & Power Electronics Consortium Singapore (SPECS). Dr Marcus Koh also gave a comprehensive overview of EPGC's megawatt-scale (MW) grid facility which is one of the largest facilities in this region. They have a complete range of generation sources, energy storage systems, and loads, which allow equipment manufacturers and system integrators to test out their technology or configuration at actual power before deployment.

SWA Webinar: Unlocking the potential of Wastewater

22nd September 2020, Complimentary, Cisco Webex

Organised by the Singapore Water Association and The Royal Danish Embassy, a complimentary webinar was held on September 22nd 2020, and was well attended by 104 participants. The objective of the webinar was to establish and foster potential collaborations between the Singaporean and Danish companies, focused in the area of wastewater businesses.

This webinar has also been included as one of the activities in the official working programme under the new environmental collaboration agreement between Denmark and Singapore by the Embassy, supported by the State of Green, The Danish Export Association and PUB, Singapore's National Water Agency.

SWA Technical Briefing: PUB BIM e-Checker Initiative

6th October 2020, Complimentary, Cisco Webex

The poster features a background image of a modern water treatment facility with large circular tanks and a bridge. Text overlays provide details about the event. A circular logo with 'BIM' and a water drop icon is in the top right. A 'REGISTER' button is at the bottom center. Contact information is at the bottom right.
