experience.science.future.

IFAT's future platform for young talents, start-ups, science and research was launched in India in 2019 and offers eligible startups, universities and NGOs great conditions for participating at the exhibition.

“ We are participating for the third time at IFAT India. Overall, we have had a good experience of participating at the past editions of the Trade Fair. The footfall has been good for us and a lot of visibility has been created. ”

Mr. Hemant Joshi,

SBU Head Water and Waste Water Solution
Thermax Limited

“ IFAT India is one of world's leading technology platforms in terms of the Sustainable Development Goals -clean water, sanitation and climate change -which are the major themes for the next 15 years for the global action. It brings together technology providers and aids cities to adopt the latest eco-friendly technologies. ”

Mr. Praveen Pardeshi

Municipal Commissioner
Municipal Corporation of Greater Mumbai
