

**SWA-MAP (Marketplace Assist Platform)**

S/N	Product/Service	Description (Max 50 words)	Please select: a. Buying b. Selling c. Others	Date of submission (DD-MM-YY)
1	International manufacturers of building & construction chemical products and technologies	Product range such as: <ul style="list-style-type: none"> <li>• Sewer, Pipeline &amp; Manhole Repairs</li> <li>• Chemical Tank protection lining</li> <li>• Waterproofing System</li> <li>• Concrete repair &amp; protection</li> <li>• Concrete Additives &amp; Admixtures</li> <li>• Injection systems</li> <li>• Industrial &amp; Resin flooring</li> <li>• Architectural Mortars</li> </ul>	Selling	05/06/20
2	Total Water Cycle Audit	a 360 evaluation on your entire water cycle. We provide you with a detailed action plan with KPI and identified potential risks to improve your water consumption and water quality.	Selling	22/5/2020
3	Water Treatment Chemicals and Additives	Our range of Hydrex™ water treatment chemicals includes are formulated for both industrial and municipal sectors including cooling tower water treatment, legionella control, process water production, etc.	Selling	22/5/2020
4	Digital Water Monitoring Solutions	AQUAVISTA™ is a truly digital suite enabling remote monitoring, troubleshooting, and optimization of your water and wastewater treatment plants as well as modular equipments.	Selling	21/5/2020
5	Water Deionization Services	A versatile, plug and play ion exchange system to meet your pure water treatment requirement which can be deployed on short term or multi year rental.	Selling	21/5/2020
6	Water Solutions For Business Continuity Plan	A mobile & pre-engineered water treatment system deployed on a trailer for short term or multi-year rental. Ideal for scheduled plant maintenance, new plant commissioning, unplanned downtime, and unexpected water disruptions, etc.	Selling	21/5/2020
7	Containerized Water & Wastewater Treatment System	1. Modularized & containerized water & wastewater treatment systems equipped with pre-treatment, ceramic/polymeric membrane & disinfection systems 2. Online Monitoring	Selling	19/5/2020
8	ECM Treatment System (Chemical-free, Cost-effective)	1. Chemical-free, cost-effective and automated ECM for treatment of silty/runoff water 2. Online Monitoring & Control	Selling	19/5/2020
9	Modularized Electrocoagulation Systems	1. Smart Electrocoagulation system suitable for industrial wastewater containing emulsified oil&grease, suspended soild, COD, heavy metals, etc. 2. Cost-effective 3. Chemical-free 4. Enclosed system	Selling	19/5/2020
10	Electric Motor	Brand New ABB Brand 75kW/1450RPM or 86kW/1770RPM B5 Flange Horizontal Motor Class F IP 55 Ex Proof Motor. Can be used for Hydraulic Power Pack. Ex Stock	Selling	12/05/20
11	Horz	Brand New Germany Bockwoldt Brand Helica Gear Box of Ratio 3.82. Horizontal.	Selling	12/05/20
12	Data Analytics	Expertise for data analytics for intelligent insights for Smart Integrated Operations and Management. Enterprise IOT Cloud platform available for interfacing different types of sensors and data platforms for integrated analytics.	Others	4/5/2020
13	Online Wastewater / Sewer Manhole Monitoring	- Sewer Flow Gauging (Level, Velocity and Flow), Report and Analysis - Sewer Manhole Level Monitoring (Level, Overflow alerts (SMS/Email) ) - Wastewater Quality Monitoring	Selling	4/5/2020

**SWA-MAP (Marketplace Assist Platform)**

S/N	Product/Service	Description (Max 50 words)	Please select: a. Buying b. Selling c. Others	Date of submission (DD-MM-YY)
14	remoteEye IOT Platform for smart remote Monitoring of Assets (Hardware, Cloud Software and Mobile App)	Easy to Deploy. Can connect different types of Sensors (Modbus, Analog, Pulse/Digital). Application: Leak Detection, Equipment Failure, Water Level, Water Quality, Water Metering, Temperature, Vibration, Energy Monitoring etc.,	Selling	4/5/2020
15	Hollow fiber ,ceramic membrane, MF/UF/NF/RO membrane, water treatment, membrane filtration & separation technology, Ion-exchange technology	1.Purification /concentration/decolorization/separation in food processing & pharmaceuticals 2. Wastewater recovery/MBR application/ pure water and seawater treatment 3. Products include full range of membrane materials and systems 4. Services include problem formulation, process design, pilot testing, all the way to deployment of membrane systems	Selling	4/5/2020
16	Pumps Qty: 5 pcs (in Spore)	Fully refurbished pumps for water, waste water, sewage, recycling, oil&gas, chemicals Material Cast iron; Sizes from 1 - 100 m3/h Pressure rating up to 10 bar Possible be also for rental/loan	Selling	28/4/2020
17	Pumps Qty: 10pcs (in Spore)	Brand new, pumps for water, waste water, sewage, recycling, oil&gas, chemicals Material Stainless steel SS 316 Various sizes from 1 - 50 m3/h Pressure rating up to 10 bar	Selling	28/4/2020
18	Pumps Qty: 50pcs (in Spore)	Brand new, pumps for water, waste water, sewage, recycling, oil&gas. Material Cast iron Various sizes from 1 - 300 m3/h Pressure rating up to 10 bar	Selling	28/4/2020
19	Environmental Consultancy	Environmental impact assessment (EIA), Environmental Monitoring and Management Plan (EMMP), water quality, risk assessment, environmental hydrology, ecotoxicology, aquatic ecology, river mechanics, contaminated sediment management, sediment transport	Others	27/4/2020
20	Legal	Require Legal consultant for patent and royalty laws	Others	24/04/20
21	IoT Platform	Low cost iot platform for smart water monitoring and automation	Selling	24/04/20
22	Manpower	1. Software Engineer for website/android/ios/enterprise development services 2. Software Engineer for IoT platform development	Selling	24/04/20
23	Membrane Pressure Booster Tank & Pump	Brand New Italy Brand Membrane Pressure Booster Steel Tank for Building, Fire Fighting System, Available in 60L to 3000L Tank. Pressure 10Bar to 16 Bar. Brand New Italy Brand Self Priming Centrifugal Pump. Up to 5m3/hr at 5 Bar. Can be used for Building Pressure	Selling	23/04/20
24	Sewage / Sludge Pump	Brand New Germany Brand Eccentric Screw Pump. Up to 110m3/hr at 22 Bar. Can be used for Mud / Sludge. High Performance. Consistent Pressure	Selling	23/04/20
25	UV Sterilizer, Water Filtration	Brand New Germany Brand UV Sterilizer. Can be used for Rain Harvesting System in Building, Pharmaceutical Industry etc. Have other Fresh Water Treatment System Equipment as well.	Selling	23/04/20
26	Research/Consultancy	Project Shea would like to engage water related companies or start-ups that could provide a water system. The requirements of the water systems are as follow: 1. Water Source using Rainwater Harvesting 2. Grey and Black water treatment 3. Could meet a small modular home space requirement of around 25sqm Project Shea could also provide a testbed for companies to pilot their innovative solutions.	Buying	22/04/20

S/N	Product/Service	Description (Max 50 words)	Please select: a. Buying b. Selling c. Others	Date of submission (DD-MM-YY)
27	Magnetrol and Panametrics Flow metres Sales & Calibration	Magnetrol Transmitters and Panametrics Flow metres & Moisture analysers and spare parts for sale and repair. Calibrate all brands of analysers.	Selling	22/4/2020
28	Masoneilan and Consolidated Valves Sales & Servicing	Masoneilan control and Consolidated safety complete valves and parts for sale and authorised repair centre. Also Overhaul all brands of valves.	Selling	22/4/2020
29	Sundyne and SPX pumps Sales & Servicing	Sundyne and SPX complete pumps and spare parts for sale and authorised repair centre. Also overhaul all brands of pumps.	Selling	22/4/2020
30	Chemicals	Provision of Chemicals for Water Treatment. Antifoam, antiscalants, biocides, coagulants, corrosion inhibitors, filter media, flocculants, membrane cleaners, softener, salt, pH and other calibration solutions	Selling	22/04/20
31	Multichannel and multifunction microprocessor transmitter/controller	The 8619 multichannel and multifunction transmitter/controller, available in two housing variants for panel or wall mounting, is a microprocessor transmitter/controller for connection of sensors which deliver raw signals for pH, ORP, conductivity and flow via pulses or sensors (like pressure, level, chlorine...)	Selling	21/04/20
32	N2 Blanket System pressure control solution for storage tanks.	Available in a few variant: Basic N2 Blanket System N2 Blanket System with Level Control N2 Blanket System with Flow Monitoring N2 Blanket System with Tank Level Control and Flow Monitoring	Selling	21/04/20
33	Online Water Monitoring for Ultrapure /Drinking /Municipal Water available for rental or purchase	Type 8905 is a device for continuous analysis of the most important water parameters: - pH - chlorine/chlorine dioxide - conductivity - ORP - turbidity - temperature. Customisable according to customer requirements. Available for rental or selling in compact version or panel.	Selling	21/04/20
34	Open channel flow meters and pH for effluent discharge from WWTP	Open Channel flow meter for Parshall flumes and V-notch system. System and solution consist of: -Type 8619- Wall mounted panel version microprocessor transmitter/controller -Type 8177- Ultrasonic level transmitter -Type 8619- pH sensor with panel box	Selling	21/04/20
35	Anti corrosion	Providing anti corrosion tapes solution for outdoor and buried pipes, joints and steel infrastructure. And we also provide hydrogen detection tapes.	Selling	21/04/20
36	Membranes	Hydranautics is a global leader in membrane technology. We offer a wide range of reverse osmosis (RO), nanofiltration (NF), ultrafiltration (UF) and microfiltration (MF) membrane based solutions to the water and separations industries.	Selling	21/04/20
37	PTFE filter	Our temish is porous PTFE material which shuts out water but allows air to pass through. This can be applied to many industries eg cleanroom, green building, etc	Selling	21/04/20
38	Surgical Masks & Respirators	1. Medical Grade Face Masks - 3-PLY, with EN-14683, CE, FDA & Nelson Lab Test Reports. Bacterial Filtration Efficiency >=98% 2. KN95 Respirator - EN149, CE, FDA & ISO. Bacterial Filtration Efficiency >=95%	Selling	21/04/20
39	Permeate Monitoring System Solution, Available for Rental or Purchase	Continuous permeate monitoring system for increase performance, quality and safeguard your Reverse Osmosis(RO) membrane for short-term system evaluation at attractive price or for purchase. 1. Initial appointment with on-site evaluation 2. Installation and system set up 3. Post report and evaluation	Selling	21/04/20
40	One Lot of CPVC Flanges [Sch80, ANSI #150 Socket Joint], sizes available 6' and 5" & 2.5" Q'ty : A few Hundreds Pcs	Brand new, Immediate Stock Available. Brand : IPEX Country of Origin : USA Material : Corzan Lubrizol CPVC	Selling	17/04/20

**SWA-MAP (Marketplace Assist Platform)**

S/N	Product/Service	Description (Max 50 words)	Please select: a. Buying b. Selling c. Others	Date of submission (DD-MM-YY)
41	One Lot of Electrofusion HDPE PE100 SDR11 fittings in vsize range of 32mm to 63mm	Unused, Immediate Stock Available. Brand : PlastItalia Country of Origin: Italy Material : PE 100 HDPE SDR 11; Type : Electrofusion; (mainly couplers, Elbow and transition fittings)	Selling	17/04/20
42	One Lot of FIP Italy FEOV/FKOV/FKOM model Butterfly Valves (bareshaft) in sizes of 12" , 10" and 225mm	Brand new, Immediate Stock Available. Brand : FIP Country of Origin : Italy Material : PVC, PP, CPVC	Selling	17/04/20
43	One Lot of JIMTEN Spain HDPE Mechanical Coupling Joint. Available in various quantities from sizes 2" to 6"	Brand new, Immediate Stock Available. Brand : JIMTEN Country of Origin : Spain Material : HDPE with galvanized steel fasteners set	Selling	17/04/20
44	VAPO AP8SR & AP5. 5R Single Acting Spring Pneumatic Actuator	Q'ty Available 2 each. Brand: VAPO, Country of Origin : Holland, Condition : Brand New	Selling	17/04/20
45	Design Consultancy	Engineering. Management. Development. As the water sector faces unprecedented challenges – ageing infrastructure, population growth, water scarcity and climate change, our specialist teams can guide you through them all. We advise on projects to realise new assets, and keep existing ones running optimally, through our detailed understanding of the technical and commercial factors affecting the water sector.	Others	16/04/20
46	UF Membranes, Cartridge Filter & Housings, RO Pressure Vessels	<input checked="" type="checkbox"/> PVDF Ultrafiltration Membranes <input checked="" type="checkbox"/> Pleated Cartridge Filter & Housings <input checked="" type="checkbox"/> FRP RO Pressure Vessels <input checked="" type="checkbox"/> Accessories (Couplings, Connectors...)	Selling	16/04/20
47	Manpower	Urgently needed: Project Scheduler x 1 proficient in Primavera software for a period of 2 months.	Buying	15/04/20
48	Legal	Providing legal services with particular expertise in the PPP and infrastructure projects.	Others	15/04/20
49	Water Treatment Chemicals	Chemical Treatment for Boilers, Cooling Towers, Chillers, Reverse Osmosis, Waster Water.	Selling	15/04/20
50	Compact Water Purification System	Our product is about alleviating the crisis of scarcity of clean water by treating and purifying available water to provide hydration as part of humanitarian relief efforts or for rural communities. Much of the cost of clean water is really embedded in transportation via pipeline or truck. Our award winning product video : <a href="https://www.youtube.com/watch?v=HXzgALXv1Oo">https://www.youtube.com/watch?v=HXzgALXv1Oo</a>	Selling	15/04/20
51	Desalination / Water treatment	1.Third-party technical advisory services. 2.Design review and design qualification: technical due diligence including testing of functionality, durability, efficiency and security of supply. 3.QA/QC: perform installation qualification, HSE support. 4.Final acceptance of construction: evaluate operation and maintenance manuals and assess actual functionality and efficiency in operation.	Selling	15/04/20
52	Membrane services	1.Over 20 specific tests are conducted on different types of membranes for fouling issues or reduced performance. 2.Continuous membrane element characterization: UF/NF/RO. 3. Sustained fact-based UF / NF / RO plant optimization: develop an integrated, prioritized optimization programme targeting savings in consumables, energy and labor.	Selling	15/04/20
53	Water efficiency services	1.Assessment: reviewing engineering processes, system operations and production plants regarding water processes and wastewater treatment. 2.As-Is analysis: inventory control, water balance sheet, system catalogues. 3.Audit and certification: ISO 46001 Water Efficiency Management System. 4.Training: standards and environmental requirements.. 5.Calculate or verify water footprint.	Selling	15/04/20
