ASSOCIATION (SWA)

# DEVELOPING ENGINEERS TO BECOME FUTURE LEADERS OF THE WATER INDUSTRY

WEBINAR

Scan to register

## AGENDA

- Introduction to Singapore Water Association
- Getting to know Singapore's water industry
- Sectors and career pathways for Engineering graduates
- Roles of an Environmental/Civil Engineer
- Application Process

## Speaker:

Kshitij Asthana  
*Associate Director, Aecom  
Singapore*

Kay has more than 12 years of progressive work experience in water engineering and urban infrastructure projects and in the development sectors of water, sanitation and environment. He has held technical and managerial roles for multi-sectoral projects, being involved in the entire project lifecycle from concept to design and implementation.
