## [Webinar] Navigating the Changing World of Work with SkillsFuture with e2i & South-West CDC

8 Apr 2021, Complimentary, Zoom

Through this session, several of our members understood how to develop resilience and upskilling plans through practical information and SkillsFuture resources in their learning and skills upgrading journey.

## SWA/SgWX Water Utilities Series: Operation & Management of Ho Chi Minh City's Water Supply System

15 Apr 2021, Complimentary, Webex

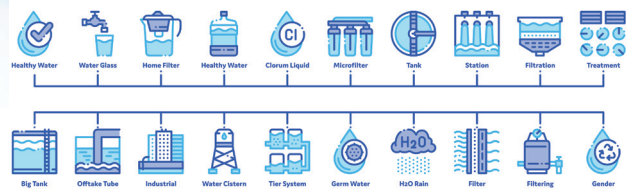

This webinar presented Saigon Water Corporation's water challenges and the solutions implemented to ensure operational continuity of water supply for Ho Chi Minh City. Participants learnt about Saigon Water Corporation's long-term plans, and discover new opportunities with sharing on upcoming projects. This webinar was open exclusively to SWA members and SgWX tenants only.

## SWA Webinar: What if underestimating sturdy sensor inputs actually prevented you from saving big on energy?

Jointly organised with Georg Fishcher  
20 Apr 2021, Complimentary, Webex

Antoine Walter, senior business development manager, wastewater treatment of Georg Fishcher Piping Systems HQ, gave an interactive and informative presentation from deriving data, 24/7 sample analysis to reaping benefits from studying the evolution of key process parameters. Christine Yap moderated the Q&A segment with interesting questions from the floor audiences.

## SWA Webinar: Integrated Technology for Industry Wastewater Treatment and Zero Liquid Discharge

Jointly organised with Pioneer Environmental Technology  
5 May 2021, Complimentary, Webex

More than 120 participants joined us in the webinar titled Integrated Technology for Industry Wastewater Treatment and Zero Liquid Discharge on 5 May 2021 at 10am, co-organised with Pioneer Environmental Technology, a subsidiary of Ann Aik Limited. James Ow PBM, executive chairman and CEO of Ann Aik Limited, gave a welcome

address; while Dr Raymond Yang illustrated the technologies to treat the industrial wastewater in a more efficient and cost-effective way by employing and integrating different technologies, including stripping column, mechanical vapour recompression (MVR), multiple effect evaporator (MEE), micro-electrolysis, and more.

## SWA Webinar: Water resource recovery dialogue between Denmark and Singapore on key innovations and opportunities ahead in the water sector

Jointly organised with Danish Water Export Association  
11 May 2021, Complimentary, Webex

**11 MAY 2021 TUESDAY**  
3:00PM - 4:30PM (SGT)  
9:00AM - 10:30AM (CET)

**WATER RESOURCE RECOVERY**

An Online dialogue between  
**Denmark** and **Singapore**  
on key innovations and opportunities ahead in  
the water sector

**DANISH EXPORT ASSOCIATION WATER**

**SWA SINGAPORE WATER ASSOCIATION**

We are pleased to have 90 participants joining us at the Water Resource Recovery Dialogue webinar between Denmark and Singapore on key innovations and opportunities ahead in the water sector. The webinar is jointly organised with the Danish Water Export Association and supported by the Denmark Embassy, Ministry of Environment of Denmark, Singapore's national water agency PUB, and several of our Danish partnering organisations. This dialogue brought together key experts and practitioners from the public sector and industry to discuss the next phase of innovation within water resource recovery, and also touched on the related issue of digitalisation of resource recovery systems and processes.

## SWA Webinar: Accelerate your company's digital transformation with Digital Reboot

Jointly organised with NTUC U SME and NTUC Learning Hub  
17 May 2021, Complimentary, Webex

We are glad to partner with NTUC U SME and NTUC Learning Hub to host this Digital Reboot Programme, sharing with our members four tracks – digital marketing, process automation, workflow automation, and data processes and visualisation – to embark on their digitalisation journey. Each track comes with free one-year software license and 10 playbooks with targeted consultations. All tracks are 90% subsidised for local SMEs and can claim Absentee Payroll under SSG.

### SME Digital Reboot

Kickstart Your Company's Digital Transformation Journey

**19 MAY 2021**  
SGT 4:00PM ~ 5:00PM

[Industrial Water Series]  
**Sharing of water opportunities in industrial projects in Philippines and Vietnam**

- Seawater Desalination
- Smart Water systems to increase revenues and decrease NRW
- Industrial wastewater treatment and recycling
- Water/wastewater quality
- Brackish water/salinity management

## SWA Industrial Water Series: Sharing of Water Opportunities in Industrial Projects in Philippines and Vietnam

Jointly organised with Ardurra International  
19 May 2021, Complimentary, Webex

More than 60 participants joined us at our inaugural SWA Industrial Water Series: Sharing of Water Opportunities in Industrial Projects in Philippines and Vietnam by Ardurra International Group. Fong Han Loong, senior assistant director, industry and technology collaboration, PUB, gave the welcome address; while Rodney Chapin, founder and CEO of Ardurra International, shared insightful opportunities and projects in the two countries.

## SWA/SgWX Water Utility Series: Water Management & Strategies of the Metropolitan Waterworks Authority (MWA)

21 May 2021, Complimentary, Webex

The Metropolitan Waterworks Authority (MWA) produces and supplies clean water in the metropolis area for a population of 10 million people. The water authority is faced recent challenges such as expansion of urban communities, growth of the industrial sector, and increased saltwater intrusion in their water resources due to climate change. This webinar presented MWA's water challenges and the solutions implemented to ensure the operational continuity of water supply in Bangkok.

### Storming Innovations with SIMTech

27<sup>th</sup> May, 2021

Thursday

enquiry@swa.org.sg  
T: (65) 6515 0812

3.00pm to 4.00pm SGT

## SWA Webinar: Storming Innovations with SIMTech

Jointly organised with A\*Star Agency, SIMTech  
27 May 2021, Complimentary, Webex

More than 60 participants "stormed" SIMTech's technologies via live session; SIMTech's novel membranes provide a number of significant advantages over polymeric membranes in terms of the process and material robustness and reliability. Speakers for the session are Dr Dong Xue Cheng, Cadence Hsien, and Dr Wu Weiye while Cedric Yon moderated the Q&A segment.

## Thai Water Expo 2021

14 to 16 October 2021, Bangkok, Thailand

Singapore registered companies are encouraged to showcase your products, innovation technologies and turnkey solutions in Thailand's only biennial international exhibition on water and wastewater technology. It is the platform for business linkage opportunities with decision – makers in the water & wastewater sector.

Thai Water Expo is the most important platform to connect with Thailand's growing consumer & industrial water and environmental needs for a cleaner, greener and more sustainable country.

For more information and immediate space booking for Singapore companies, please contact: Jasvinder Singh, Tel: +65 6515 0812 or E-mail: [jasvinder@swa.org.sg](mailto:jasvinder@swa.org.sg)
